Forensic Investigation Report

Case Subject: Incident Response: Suspicious System Intrusion • Case Number: **CASE-2026-001**

1. Investigation & Custody Metadata

Case Number:	CASE-2026-001	**Date of Report:**	2026-11-09 13:24:29
Lead Investigator:	Agent Vance (Chief Investigator)	**Case Status:**	Active
Organization:	Digital Forensics & Incident Response Lab	**Total Artifacts:**	11
Case Scope / Notes:	Primary digital evidence analysis case for triage and artifact verification.		

2. Executive Summary & Telemetry

This forensic examination involved the cryptographic acquisition, integrity verification, and AI-driven heuristic anomaly analysis of **11** digital evidence items totaling **0.04 MB**. Of the acquired evidence items, **11** were verified with intact cryptographic SHA-256 baselines. The AI Anomaly Detection engine flagged **4** items warranting prioritized investigator review, including **1** disguised file extension evasion attempts and **1** duplicate clusters.

4. AI-Driven Anomaly & Threat Detection

File: security_driver_mod.sys • **Path:** D:\Digital forensics evidence analysis\sample_evidence\security_driver_mod.sys — **SUSPICIOUS** (Score: 41.2%)

Entropy: 2.02/8.0 • **MIME:** application/x-dosexec • **Detected:** Windows Executable (PE/DLL/EXE)

Forensic Findings:
• Modified time (2024-11-09T13:24:27.397390) precedes creation time (2026-11-09T13:15:05.532433) by 63071438 seconds.

File: locked_database_payload.bin • **Path:** D:\Digital forensics evidence analysis\sample_evidence\locked_database_payload.bin — **CRITICAL ANOMALY** (Score: 85.0%)

Entropy: 7.99/8.0 • **MIME:** application/octet-stream • **Detected:** Generic Binary / Unknown

Forensic Findings:
• AI Alert: Filename contains known threat actor keyword match: 'locked_database_payload.bin'
• High Shannon entropy (7.9947/8.0) strongly indicates encrypted or packed code.

File: invoice_urgent.pdf.exe • **Path:** D:\Digital forensics evidence analysis\sample_evidence\invoice_urgent.pdf.exe — **SUSPICIOUS** (Score: 55.0%)

Entropy: 2.05/8.0 • **MIME:** application/x-dosexec • **Detected:** Windows Executable (PE/DLL/EXE)

Forensic Findings:
• Deceptive double extension detected: 'invoice_urgent.pdf.exe'

File: corporate_financials.jpg • **Path:** D:\Digital forensics evidence analysis\sample_evidence\corporate_financials.jpg — **HIGH RISK** (Score: 65.0%)

Entropy: 1.36/8.0 • **MIME:** application/x-dosexec • **Detected:** Windows Executable (PE/DLL/EXE)

Forensic Findings:
• AI Alert: Critical file type extension mismatch detected.
• CRITICAL: Binary executable disguise! File has extension '.jpg' but magic bytes match 'Windows Executable (PE/DLL/EXE)'.

5. Duplicate Evidence Identification

SHA-256 Hash	Copies	File Size	Wasted Volume	Associated File Paths
49f3afe92f2b9f841beb...	2	1,560 B	1,560 B	backup_archive_primary.zip backup_archive_secondary.zip

6. Cryptographic Chain of Custody & Audit Certification

All actions, evidence acquisitions, and algorithmic scans performed in this investigation are recorded in an immutable SHA-256 cryptographic hash-chained audit ledger.

Audit Chain Status: **INTEGRITY INTACT - CHAIN VALID**
Total Sequenced Records: 13
Head Cryptographic Proof: `4a2aa8333d4056d081805979dd36d1a225babcd4741e73a105039f24a07afa0c`

7. Examiner Certification & Attestation

I hereby attest under official oath that the examination and analysis documented herein were performed in accordance with standard scientific digital forensic principles. The evidence integrity hashes were cryptographically computed and maintained without unauthorized alteration.

Examiner Signature: _____

Name: Agent Vance (Chief Investigator)
Title: Lead Forensic Investigator

Peer Reviewer: _____
